Invites you to tour the

Museum of Medical History and Innovation

On Wednesday, November 7, at 9:45am

The Paul S. Russell, MD Museum of Medical History and Innovation tells the rich story of Mass General through interactive media displays, artifacts and photographs. You will learn about the hospital’s important contributions to the medical field and see how these discoveries and advancements have shaped the present – and how the hospital can continue to shape the future of medicine. Included in the visit is a fully guided tour of the famous Ether Dome, the MGH surgical amphitheater where on October 16, 1846 William T.G. Morton made history performing the first public surgery using ether as an anesthetic.

We will meet at Harvard Neighbors, Loeb House, 17 Quincy Street, Cambridge and leave promptly at 10:00am to take the Red Line to MGH. The tour is from 10:30am to 12pm, followed by a by lunch at the Clink Restaurant at Liberty Hotel (formerly the Charles Street Jail).

The tour is limited to 15 people. Please RSVP to neighbors@harvard.edu to reserve your spot.
